	Name:	Yongchul Chung	Homepage:
	E-mail:	yongchulchung@gmail.com	Telephone: 02-705-4723
	Office: Room 23 Gymnasium Office Hours: Tuesdays 14:00- 17:00PM; Thursdays 14:00 – 17:00PM		

## I. Course Overview

#### 1. Description

This course explores both eastern and western ways to excel in various realms of life. Based on scientific knowledge gained from performance psychology and mental coaching, this couse attempts to combine traditional meditative practices and cutting edge advances in neuro-science. The purpose of this course is to explore possible intersections between the two traditions and promote future collaborations to provide integrated training and professional development for human flourishing. Specifically, this course examines psychological theories and practices related to human potential within the lens of positive psychology and meditative practices. Furthermore, we will be discussing topics stemmed from positive psychology as it relates to human excellence. Ultimately, our focus will be placed on bridging how to achieve peak performance (i.e., athletic excellence) and how to excel in life (i.e., human flourishing).

#### 2. Prerequisites

#### 3. Course Format(%)

Lecture	Discussion	Experiment/Practicum	Field study	Presentations	Other
40 %	30 %	30 %	%	%	%

#### 4. Evaluation (%)

Mid-term Exam	Final exam	Quizzes	Presentations	Projects	Assignments	Participation	Other
%	%	10%	30%	30%	20%	10%	%

## **II**. Course Objectives

- 1. To increase your understanding of how psychological factors influence involvement and performance in various human functioning;
- 2. To increase your understanding of how participation in physical activities influences the psychological makeup of the individuals involved; and
- 3. To help you acquire skills and knowledge that can be applicable to your real life and reach your full potentials in life.

### **III**. Course Format

The class will be taught using two instructional approaches. We will spend about 40% of class time in a lecture format and 30% in a seminar format, where discussions will be held, videos watched, and laboratories conducted. Also, we will spend 30% of class in the field actively engaged in physical activities (e.g., running, climbing, meditative practices).

#### **IV**. Course Requirements and Grading Criteria

For the class to be successful, everyone involved must contribute. This includes preparing for class by completing the reading materials and assignments on time, coming to class on time, participating in class discussions, and participating in all class activities.

## V. Course Policies

<u>Disability Accommodations</u>: If you need disability accommodations in this class, please see the instructor as soon as possible. Information regarding disabilities is confidential.

<u>Academic Dishonesty</u>: Unfortunately, there have been occasions in the past where students have engaged in various forms of academic dishonesty (e.g., copying other students work, cheating on tests). There is a **"zero tolerance**" approach to academic dishonesty in this class and violations will be dealt with according to the University guidelines.

<u>Assignment Expectations</u>: Written assignments must be typed, double-spaced, and turned in at the beginning of class on the assigned dates. We expect that assignments will be completed with proper grammar/spelling, appropriate presentation, and clear expression of ideas.

## VI. Materials and References

A textbook has been written specifically for this course. You are required to keep up by reading the course material assigned prior to each class meeting.
